Its funny when you see some discussions like this. Today I just stumble upon this wikipedia article where there is a big fight going on between the user who wrote the article and the admin(may be) of wikipedia. So out of curiosity I found out more details about this "discussion". Apparently when you go to WikiPedia.org and find out the "Preity Zinta" page, you will see a message saying "This page is currently protected from editing until disputes have been resolved. Protection is not an endorsement of the current version (protection log). Please discuss changes on the talk page or request unprotection."

On that page if you click on a discussion tab, you will see a "Debate" going on for preity zinta. Few topics that are being discussed

- "**Zinta has worked with the biggest stars in the Indian industry, including four times with Shahrukh Khan, Salman Khan, Saif Ali Khan, Amitabh Bachchan and Rani Mukerji.**" People can count. Why is that information interesting? The articles of the movies should include that.

- "**They appear to be very much in love, and there is a lot of speculation whether the two will marry soon.**" Both are just speculation. She is seeing him. Enough information.

The above bold sentences were written (I think) by Preity Zinta's die hard fan. So check out

what that fan came back with.

Preity Zinta, I know that you all want to change completely her page, but please pay attention to some important requests. I dare to ask all of you that, because I have worked very hard on this page. If you look the history page of Preity you`ll see that I dedicated myself for hours to expand the page.

- Firstly, please be fair in your edits, and before editing be sure that things you`re removing or changing in Preity`s page won`t remain in Rani`s page, like the awards for example, cause it will be very unfair.

The moment I read this, I was laughing my @\$ off.

And here is some interesting discussion about Rani Vs. Preity.

In the B.O Preity does the same as Rani. Absolutely the same. Both of them can't do hits out of dharma and YRF. Their names always come together. Because there is no difference between Rani's & Preity's abilities in the B.O in the last years. Every year hit and flop. Rani had 1 hit more in 2004 just like Preity had more in 2003. They are even criticized together in this issue. That's why Preity can't charge less than Rani. I believe in B.O.I. Just like we go as per IMDB here,(and I know it makes you upset because of the cast in VZ) we go as per Box Office India.

Although Rani was number 1 in the last three years, Preity was always number 2 and that's a big achievement, and you can't ignore the fact that she is a wonderful actress although you hate her (that's what I've seen from your edits in the past, but I'm here and I won't let you do it again). In 2003 Aish wasn't the number one. Preity was. so don't tell me that again because I have the proof. Like I said in the past, Preity has done more in her 9 years in the industry than Rani in her 11. I've seen all the Preity and all the Rani films. I love all the Preity films, and although I love most of Rani's films like black, saathiya, hum tum, chalte chalte, veer zaara, yuva, KKHH but I also dislike some films and let me tell you films like mehndi are the worst films ever made in bollywood. I love Rani as an actress, but I love Preity more. And you have to understand that there are actresses like Manisha, Karisma Kapoor, Urmila, Rekha, Madhuri and Tabu. All of them just brilliant in every film they do, they had the biggest roles and their act abilities and movie performances are way way better than Rani's or Preity's or Kareena's.
