Don't worry this article is not about cats and dogs. If you are a die hard fan of RapidShare, you know how frustrating it is when you are not a premium member and you have to wait for those 2 minutes or 6 minutes in between your downloads. Also you have to watch for those CAPTCHA images to actually let the download begin.

Well, here is a good news for those who are looking for Happy Hour where rapidshare allows free members to download without waiting and captcha images. But how can you find out when is RapidShare's happy hour? HappyCat is here for you. HappyCat is a software that notifies you when RapidShare has its happy hour ON.

HappyCat is a small application that you can download and install on your computer, once installed, you can configure it to give you popup notification as soon as there is a happy hour for rapidshare. You can download HappyCat
{In:nw:http://www.informationmadness.com/download/HappyCat.msi 'here}.

There is another application called HappyHourChecker which is also a similar application that allows you to notify for the Happy hour and lets you automatically download your rapidshare files. You can download RSHappyHourChecker.zip file {phocadownload text=HappyCat|id=9|view=file}

Also there is a website called [CaptchaExchangeServer](#) that lets you automate your captcha image verification. You can read more about that at [RapidShareTools](#)
